

Campus Partners Early Intervention Program

Authorization Form

The Early Intervention Program (EIP) is designed to prevent borrowers from becoming delinquent. In addition to the standard due diligence services provided by Campus Partners, EIP provides a series of specialized letters and telephone contacts made to borrowers who are 15 to 105 days past due. The objective is to return the borrower's account to a current status.

The cost of EIP is a per borrower servicing fee of \$25.00. You have the option of charging this \$25.00 fee (or a higher fee) back to the borrower. If you would like to charge this fee to the borrower, Campus Partners will add the cost to the borrower's first loan. As borrowers make payments, you can reimburse your institutional funds.

If interested in this service, please complete the form below and submit via mail or fax to:
